

**“ Is it time to put away the scrubs?”**

## **RN Workers' Comp Case Manager Trainee**

Sacramento County, CA

**Would a more supportive, less stressful, patient-focused work environment - where doing the right thing is the top priority - improve your job satisfaction? How about a job where you work from your home office?**

**Come grow with us!** Our continued growth demonstrates that our style and quality of nurse case management is just what clients are looking for. Key to that is **our unmatched team of dedicated nurses who we support and empower to do what they do best**, spending more time helping and caring for injured workers, and less time on burdensome paperwork and processes.

**We have an opening in our medical case management training program** for a nurse with little or no workers' compensation experience. Our program prepares the exceptional nurse for entry into the field of medical case management in workers' compensation.

Our open training position is field-based (requires local travel to MD offices) from the candidate's home office. **This is a fantastic, rare opportunity for the registered nurse who is ready to trade their scrubs in for business attire and a regular Monday-Friday business work day!**

### **ABOUT US**

**We are a company founded, owned and managed by nurses** who provide a working environment that helps you practice high caliber professional medical case management.

**We take job satisfaction and work-life balance seriously!**

We offer the stability of an established, long running practice, while maintaining our "boutique" small company philosophy in a supportive family like environment. We believe in taking care of our team first so they can take care of each other and the clients we serve. With that in mind, we invest and offer big company benefits not often seen in a small business. **It's a great place to work (and retire from)!**

### **TALK TO US**

If you're an experienced RN who is feeling overworked and underappreciated, and want to get back to doing what you love about nursing, we would love the opportunity to share the experience of being a CHOICES nurse with you. To start the conversation, send in your resume today to [jobs@choicescm.com](mailto:jobs@choicescm.com).

**Benefited position with competitive pay & bonus program + work from your home office!**
